

Do your own memory & enjoy while learning

Paint and colour each piece.

Mix up all the pieces and put them upside down on any plain superficie.

How to play:

The first player turns two of the pieces over, if the names matches the picture the player keeps the matching pair, if not he or she turns them upside down again and leaves them on the game. Now it's another player's turn.

The aim of the game is memorizing where the matching pairs are. The player that recollects more pairs wins.
